DERMATOLOGICALLY TESTED

Regenerative-protective skincare balm is a natural, effective product for the care of problematic, oily, and damaged skin and scalp. It effectively cares for skin with symptoms of psoriasis, dandruff, seborrhoea, and itching. It exfoliates callous epidermis, hydrates and moisturises the skin, leaving it smooth and soft.

Properties of the active ingredients:

The active ingredients of the balm provide an effective care of problematic skin. They have regenerative and anti-inflammatory properties. They restore the natural functions of the skin, as well as its normal, healthy appearance.

Birch Tar (*Betula Alba Oil*) – it is a natural product, obtained from dry distillation of birch bark. It shows strong reductive, disinfecting, anti-itch, locally anaesthetic, anti-parasitic, drying, anti-inflammatory and anti-mycosis properties. It exfoliates the external layers of the epidermis, disinfects, and eradicates itching.

Biosulfur (*Sulfurized Castor Oil*) – softens callous epidermis, regulates the functioning of sebaceous glands, has anti-bacterial and anti-mycosis properties.

Three-lobed Beggarticks (*Bidens Tripartita Herba Extract*) – contains carotene, Vitamin C, Tannin, flavonoids, actively eradicates skin inflammation and itching.

Hemp Oil (*Cannabis Sativa Seed Oil*) – perfect for skin with symptoms of atopy, psoriasis, and for moisturising overly dry, itching or damaged portions of skin. It is easily applied and absorbed. It increases the skin's immunity.

Borage Oil (*Borago Officinalis Seed Oil*) – rich in highly concentrated Omega-3 and Omega-6 acids. Contains Vitamin E and minerals, has antioxidant anti-inflammatory and regenerative properties. Is a valuable source of potassium, sodium, magnesium, sulfur and chloride, thus having antiseptic and anti-bacterial properties. Borage oil increases elasticity and protective properties of the skin, rebuilds the epidermal structure, removes toxins.

Instructions for use: Apply a small amount of the balm onto problematic sections of skin, twice a day.

Warning: Do not use if you are sensitive to any of the ingredients. Do not use on children less than three years old. After applying the balm stay out of sunlight.
